

Ultrafix

Colourless consolidating primer

Description

Colourless consolidating primer based on an ultra-fine acrylic dispersion. Enhances adhesion and extends the open time of the coating system. Provides excellent penetration and consolidating properties. Strengthens chalky and absorbent substrates.

Substrates

Is to be applied on unpainted indoor and outdoor chalky and/or porous substrates made of concrete, aerated concrete, bricks, fibro-cement, plaster(boards).

Properties

• Binder:	acrylic copolymers
• Solvents:	water
• Density:	± 1.01
• Solid content by weight:	± 16%
• Solid content by volume:	± 15%
• Gloss unit:	velvety matt

VOC content

This product contains at most 30 g/l.
EU limit value for this product (Cat. A/h): 30 g/l (2010).

Drying time at 20 °C

• Touch dry:	2 hours
• Recoat:	6 hours
• Hard:	2 days

Coverage

6 to 8 m²/l depending on substrate type and manner of application.

Dilution ratio

Do not dilute.

The effectiveness of our products and systems is based on in-depth laboratory research and many years of practical experience. However, we accept no liability for any problems that may arise, as the final result may be influenced by a number of factors of which we are not necessarily aware. 24/09/2026 version.

Ultrafix

Colourless consolidating primer

Characteristics

- Excellent penetration and consolidating properties.
- Alkali-resistant.
- Permeable to water vapour.
- Strengthens chalky and absorbent substrates.
- Improves the adhesion and open time of the topcoat.

Packaging options

5 l

Application conditions

Ambient temperature between 10°C and 25°C with a substrate humidity of maximum 10%.

Application instructions

- The product is to be applied on a sound, clean and dry substrate.
- Glossy substrates are to be sanded before starting with application.
- Dirty or infected (fungi and moulds) substrates are to be cleaned and degreased as well as undergo appropriate treatment.

Storing & disposal

Store the product in its original unopened packaging in a cool place, protected from frost and direct sunlight. Dispose of empty containers at an appropriate waste collection facility. Dispose of product residues in accordance with applicable local and national regulations.

Safety

Keep out of reach of children. Do not get in eyes, on skin, or on clothing. Call a doctor if you feel unwell. If medical advice is needed, have product container or label at hand. Dispose of contents and container in accordance with local, regional, national or international regulations. Contains biocidal products (preservatives). Contains: 1,2-benzisothiazol-3(2H)-one + CMIT/MIT (3:1). May produce an allergic reaction.
